### AUTO SMASH-UP NEAR GOTHENBURG

The following is clipped from the Gothenburg Times of last week. These young people are well known here among the younger set.

Too much speed was responsible for a serious auto accident which occurred Friday evening. Louis Pollat, Elwin Karr, Miss Gail Hannum and Miss Frances Farrel were out for a ride in the Pollat car, a seven passenger Nash and they were about two miles east of Gothenburg on the State Highway when the accident took place.

Just what happened isn't known. Miss Hannum was driving and they were going pretty fast. The car swung partly across the road and turned over, probably twice. Pollat went out the first time evidently, as the others were further down the road. He had a gash cut in his head but didn't notice it until the blood trickled down his face. He saw Karr lying on one side of the road and Miss Farrel on the other. He called but got no reply and Miss Hannum wasn't visible. In a few seconds, however, she crawled out of the front door on the left side, which had been broken off. The car was bottom side up.

L. H. Pierce and wife of Cozad happened along in their car and brought the four young people to Gothenburg and they were given attention at Dr. Moore's hospital. Karr was unconscious but a few moments, but Miss Farrel suffered serious concussion of the brain and up to yesterday had not regained consciousness, though her condition showed improvement. Miss Hannum was bruised some about the head and her arm was cut by the broken wind shield. Karr was bruised but not seriously hurt.

The auto was brought in Saturday. Every spoke was broken off in the left rear wheel, the running board was smashed and the front wheel on that side was in bad shape and fenders bent. The wind shield frame was flat down on the steering apparatus, which was minus the wheel, one door was torn off and the top was a wreck.
